EXPERIENCES

Livecart

(1 year) Aug 2021 – Present

Flutter Developer | Flutter, JS, InAppWebView, Firebase

London, UK (Remote - part time)

- Livecart is an innovative hyper-local real-time eCommerce platform, providing the most convenient local shopping experience, with the power to find, search and explore local offers on your everyday shopping for pickup or rapid delivery.
- Implementing a wrapper by Flutter in Android and IOS platforms. 
- I'm responsible for communicating between Flutter and Javascript.
- I've implemented supporting Firebase services like Notifications, Analytics, and Crashlytics.
- I've improved the speed and performance of the application.

Pardakht Novin

(2 years) Jul 2020 – Present

Flutter Developer | Flutter, BLoC, Encryption, Barcode Scanner, SQLite, Firebase

Tehran, Iran

- Pardakht Novin Company is currently active in the field of electronic payment as one of the companies licensed by the Iran Central Bank.
- Publishing a financial application for Android, IOS and web platforms. 
- I've implemented application architecture by Repository Pattern.
- I've developed encryption through native languages in platform channels.
- I was responsible for debugging the IOS version and publish it on Appstore.
- I've developed some new services and lead to attract more than 10000 new users.

Tarafdari

(15 months) Jan 2019 – Jun 2020

FullStack Developer | Flutter, ScopedModel, SocketIO, SQLite, Firebase

Tehran, Iran

- Tarafdari is the first and most popular sports social media network with millions of users in Iran, providing official news and live scores of national and international matches
- Publishing a news application for Android and IOS platforms. 
- I've developed several features by using file-manager, charts and tables, lead to attract 20000 new users.
- I've implemented TV Sports matches streaming with Live Chat on the SocketIO.
- I've developed Supporting Firebase services like Notifications, Analytics, and Crashlytics.
